

Muhammad Bilal

Front-end Developer

Islamabad, Pakistan • +92 3495683110 • mxbila10@gmail.com • linkedin.com/in/mxbila10

A front-end developer with expertise in React JS, NextJS, JavaScript, NodeJs, HTML, CSS, and SCSS. Experience working on a range of projects, from simple web pages to complex web applications, and have a track record of delivering quality work on time and within budget. Currently responsible for development and maintenance of multiple applications, working closely with designers and other developers for seamless user experiences. Skilled in problem-solving, a quick learner and motivated to improve skills. Believes in writing clean and maintainable code and familiar with industry best practices and standards.

WORK EXPERIENCE

Frontend Developer at Xint Solutions

March 2023 – Present

Lahore, Pakistan

I'm a front-end developer here, mostly focusing on NextJS and ReactJS projects.

- REST API integration.
- Access control list for authorization of different users.
- Google Map Integration.
- Maintain control over the production-related code, including deployment and troubleshooting
- Developed Ride Dashboard similar to Uber where you can manage rides, drivers and tracking locations.
- Design Reusable Components.

React JS Developer at Selteq IT Solutions

March 2021 – March 2023

Islamabad, Pakistan

I came on board as a junior front-end engineer and used my understanding of JavaScript to work on projects including ReactJS and NextJS.

- REST API integration.
- Google Map Integration.
- Created Plexaar (a management system) to organise the company's operations, staff schedules, and services.
- Contributed in Expert App for customers to avail services.
- Contributed in Admin website for managing all customers and providers.
- Integrated Google Recaptcha to increase security.
- Design Reusable Components.
- Optimized and refactored code to have better performance.

Additional Part-time work

Islamabad, Pakistan

I am currently pursuing my goal of becoming a MERN stack developer by learning ExpressJS and MongoDB on a part-time basis.

- ExpressJs endpoints.
- MongoDB utilized and established connection to ExpressJs.
- Socket.io implementation
